PROFESSIONAL SUMMARY

Performance-driven Full-Stack Web Developer and Shopify Specialist pursuing a B.Sc. in Computer Science & Engineering at Varendra University. Experienced in architecting end-to-end e-commerce platforms, responsive React web applications, and AI-integrated digital systems. Proven record of developing commercial storefronts, streamlining automated B2B customer pipelines across global markets, and delivering high-converting, accessible user interfaces. National 2nd Runner Up & Global Nominee at NASA Space Apps Challenge 2025.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, Modern CSS3, Tailwind CSS, Dart, Python, C/C++

Frameworks & Frontend: React.js, Vite, TanStack Router / Start, Next.js, Redux / Context API, Mobile UI (Flutter)

E-Commerce & Shopify: Shopify Liquid Theming, Custom Sections, Cart Optimization, Store Architecture, Checkout UX

Backend & Databases: Node.js, Express.js, RESTful API Engineering, MongoDB, SQL, Firebase, Authentication

Tools & Cloud Deployment: Git, GitHub, Vercel, Postman, npm/pnpm, Linux Shell, Core Web Vitals Optimization

Marketing & Digital Media: Google Merchant Center (GMC Misrepresentation Recovery), Google Shopping, Premiere Pro, After Effects

WORK EXPERIENCE

Royal Hair Wigs — *Social Media & Creative Lead / Web Developer*
Oct 2024 – Present | Rajshahi, Bangladesh & International Markets (Dubai, USA, Italy)

- **Digital Client Acquisition:** Managed multi-channel digital client outreach and commercial video campaigns, generating high-intent v relationships across Dubai, the USA, and Italy.
- **Workflow & Ingestion Automation:** Engineered automated WhatsApp API inquiry workflows and optimized digital product presenta response times and improving qualification efficiency.
- **Conversion & Brand Assets:** Produced commercial video assets, kinetic typography ads, and product showcase assets that elevated c inbound conversions.

Freelance Full-Stack & Shopify Developer — *Self-Employed*
2024 – Present | Remote (Serving Clients in UK, Europe & Asia)

- **E-Commerce Development:** Architected custom high-converting Shopify storefronts using bespoke Liquid sections, custom cart drav conversion-optimized product detail pages for international direct-to-consumer brands.
- **Web Platform Delivery:** Built responsive, accessible web applications with React, TypeScript, and modern styling libraries, ensuring load times and 95+ Core Web Vitals performance.
- **GMC Compliance Recovery:** Diagnosed and rectified Google Merchant Center policy violations (Misrepresentation, product feeds), restoring suspended retail feeds to active status.

EDUCATION

Bachelor of Science in Computer Science & Engineering (B.Sc. in CSE)
Varendra University, Rajshahi, Bangladesh | 2022 – 2026 (Final Year)

- **Academic Focus:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems (SQL), Software Engineering Methodologies, Web Engineering, and Computer Networks.

SELECTED FEATURED PROJECTS

01. RoyLux — Premium Fashion E-Commerce Platform [Live Demo]

Technologies: React, Vite, Tailwind CSS, Lucide Icons, Modern Client State

- **Storefront Architecture:** Designed and implemented a luxury e-commerce experience featuring dynamic product catalog browsing, c collection filtering, and dedicated high-fidelity product detail pages.
- **Cart & Checkout Workflows:** Engineered interactive shopping cart state management, customer information collection forms, and c supporting both Cash on Delivery (COD) and online card payment simulation.
- **Editorial UI/UX:** Delivered an editorial visual identity tailored for modern fashion brands with smooth micro-interactions, responsive slide-out cart drawers, and zero layout shift.

02. Safdarabad Gym Khan'a — Full-Stack Gym Management System [Live Website]

Technologies: Full-Stack Web Architecture, Modern CSS, Member Auth, Management Workflows

- **Membership Management:** Engineered an end-to-end gym operations website providing online membership enrollment, tier selectio member authentication, and account access.
- **Recurring Payment Tracking:** Structured account portals enabling members to monitor monthly fee payment statuses, check registra access trainer timetables and workout schedules.
- **Operational Admin Workflow:** Streamlined back-office record organization and member inquiry routing, integrating direct WhatsAp for rapid front-desk support.

03. Fair Prices (š‰Íšù¾šùÍšò ®œ)²œÙ¯) — Civic AI Market & Grocery Budgeting Platform [Live App] [GitHub]

Technologies: React, Vite, Google Gemini AI API, Tailwind CSS, DAM Live Sync

- **Price Transparency Engine:** Developed a consumer advocacy platform comparing daily retail commodity rates directly against gove benchmark prices to curb arbitrary market overcharging.
- **Gemini AI Assistant:** Integrated Google Gemini LLM to interpret household grocery budgets, predict cost fluctuations, and recomme economical purchasing substitutes in real time.

04. FitLog — Workout Tracker & Training Planner [Live App]

Technologies: React, Vite, Tailwind CSS, Local Storage, Mobile-First Web

- **Exercise Analytics:** Built a progressive workout logging application with custom routine construction, set/rep tracking, personal reco milestones, and volume analytics.
- **Performance & Usability:** Optimized with instant client-side persistence, offline resilience, and touch-first interactions tailored for h floor sessions.

HONORS & AWARDS

NASA Space Apps Challenge 2025 — 2nd Runner Up & Global Nominee

National Stage, Bangladesh | Issued by NASA Space Apps Challenge Organizers

- **Competitive Recognition:** Secured 2nd Runner Up honors and nominated to represent the nation in global evaluation among hundred developer and engineering teams nationwide.
- **Scientific Data Integration:** Engineered an innovative Earth-observation data visualization and analysis solution within an intensive competitive software hackathon sprint.

PROFESSIONAL METHODOLOGIES & HIGHLIGHTS

- **Full Lifecycle Engineering:** Experienced in the complete development pipeline from technical requirements discovery, database sche modular UI component architecture to deployment on cloud hosting (Vercel, GitHub).
- **Performance & Conversion UX:** Dedicated to Core Web Vitals compliance, responsive mobile optimization, accessible semantic HT centered user flows that turn site visitors into paying customers.
- **Collaborative Execution:** Strong communicator with experience coordinating with international clients, cross-functional project tean paced agile development cycles.
